

TA Series Harnesses

D08575 20' Harness
D08574 30' Harness

DC Wiring
20' or 30' long
4ga cable in 20' harness.
2ga cable in 30' harness.
Red = Alternator Positive
Black = Battery Positive
Green = Ground

Alternator AC Tap Wiring
20' or 30' long
6ga cable in 20' harness.
4ga cable in 30' harness.
Blue Connectors

BIC Harness
16 ga wires 20' or 30' long
Orange = +12v input from ignition.
Blue = pos output to alternator field.
Brown = +12v "Inverter ON" output.

Bypass Voltage Regulator Connector
used only while BIC Harness is disconnected
from inverter (inverter removed from system).
